Re: Apprentice Electrician Training Program

I am submitting the following program for your inspection and approval for the training of all Apprentice Electricians

The training program will comply with Title 48, Series 7 of the West Virginia Administrative Rules and Regulations.

- All apprentice electricians will attend an eight-hour classroom training course in the hazards of electricity.
- All electrical work will be under Immediate or Direct supervision of a certified electrician as required by law.
- Twenty percent (20%) of the twelve-month training period will be involved directly with electrical work. (Low, Medium, and High Voltage)
- All apprentice electricians work will be logged and validated by both the apprentice and the Supervising Electricians' Signatures. All apprentice logs will be kept at the mine site. The official log sheets must be used.
- During the twelve-month period, all apprentice electricians will be given at least forty (40) hours of classroom training in the following subjects.
 1. State and Federal mining laws which apply to electricity
 2. Permissibility
 3. AC and DC Theory
 4. Basic Electricity
 5. Schematic Reading
 6. Gas Detection and Fire Prevention
 7. National Electrical Code

The classroom training will be instructed by a MSHA Qualified Trainer.
